**BEFORE THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA**

Application of Adir International Export Ltd dba La Curacao (U-6610-C), for a Certificate of Public Convenience and Necessity to Provide Limited Facilities-Based and Resold Competitive Local Exchange and Interexchange Service in the State of California.

Application 03-08-020  
(Filed August 22, 2003)

**O P I N I O N****I. Summary**

Adir International Export Ltd dba La Curacao (Applicant) seeks a certificate of public convenience and necessity (CPCN) under Pub. Util. Code § 1001 for authority to provide limited facilities-based and resold local exchange telecommunications services. Applicant was previously authorized to provide limited facilities-based and resold interexchange services. By this decision, we grant the requested local exchange authority subject to the terms and conditions set forth below.

**II. Background**

In prior decisions, we authorized the provision of competitive local exchange service, by carriers meeting specified criteria, within the service territories of Pacific Bell Telephone Company (Pacific), Verizon California Inc.

(Verizon), Roseville Telephone Company (RTC), and Citizens Telecommunications Company of California, Inc. (CTC).

Applicant, a California corporation, seeks authority to provide limited facilities-based and resold local exchange services as a competitive local carrier (CLC) throughout Pacific and Verizon's service territories.

By Decision 01-12-033, Applicant was authorized to provide limited facilities-based and resold interexchange services (U-6610-C).

Applicant's principal place of business is located at 1605 W. Olympic Boulevard, Suite 600, Los Angeles, California 90015.

### **III. Financial Qualifications**

To be granted a CPCN, an applicant for authority to provide facilities-based and resold local exchange and/or interexchange services must demonstrate that it has a minimum of \$100,000 of cash or cash equivalent to meet the firm's start-up expenses.<sup>1</sup> An applicant must also demonstrate that it has sufficient additional resources to cover all deposits required by local exchange carriers (LECs) and/or interexchange carriers (IECs) in order to provide the proposed service.<sup>2</sup> Applicant provided audited financial statements that demonstrate that it has sufficient cash to satisfy the financial requirements.

---

<sup>1</sup> The financial requirement for CLCs is contained in D.95-12-056, Appendix C. The financial requirement for NDIECs is contained in D.91-10-041.

<sup>2</sup> The requirement for CLC applicants to demonstrate that they have additional financial resources to meet any deposits required by underlying LECs and/or IECs is set forth in D.95-12-056, Appendix C. For NDIECs, the requirement is found in D.93-05-010.

**IV. Technical Qualifications**

Applicants for CLC authority are required to make a reasonable showing of technical expertise in telecommunications or a related business. Applicant submitted biographical information on its management that demonstrates that it possesses sufficient experience and knowledge to operate as a telecommunications provider.

Applicant represents that no one associated with or employed by Applicant as an affiliate, officer, director, partner, or owner of more than 10% of Applicant was previously associated with any telecommunications carrier that filed for bankruptcy or went out of business, or was sanctioned by the Federal Communications Commission or any state regulatory agency for failure to comply with any regulatory statute, rule, or order.

**V. Tariffs**

Commission staff reviewed Applicant's draft tariffs for compliance with Commission rules and regulations. The deficiencies are noted in Attachment A to this decision. Applicant shall correct these deficiencies in its tariff compliance filing as a condition of our approval of its tariffs.

**VI. California Environmental Quality Act (CEQA)**

CEQA requires the Commission as the designated lead agency to assess the potential environmental impact of a project in order that adverse effects are avoided, alternatives are investigated, and environmental quality is restored or enhanced to the fullest extent possible. Applicant represents that it will not be constructing any facilities, other than equipment to be installed in existing buildings or structures, for the purpose of providing local exchange services. Therefore, it can be seen with certainty that there is no possibility that granting this application will have an adverse effect upon the environment. Applicant

must file for additional authority, and submit to any required CEQA review, before it can construct facilities other than equipment to be installed in existing buildings or structures.

## **VII. Request to File Under Seal**

Applicant requests that the financial information filed with the application be filed under seal. The financial information consists of audited financial statements. Applicant represents that the information is proprietary and sensitive. The information, if revealed, would place Applicant at an unfair business disadvantage. We have granted similar requests in the past and will do so here.

## **VIII. Conclusion**

We conclude that the application conforms to our rules for authority to provide competitive local exchange telecommunications services. Accordingly, we shall approve the application subject to the terms and conditions set forth herein.

## **IX. Comments on Draft Decision**

This is an uncontested matter, in which the decision grants the relief requested. Accordingly, pursuant to Pub. Util. Code Section 311(g)(2), the otherwise applicable 30-day period for public review and comment is being waived.

## **X. Categorization and Need for Hearings**

In Resolution ALJ 176-3118 dated September 4, 2003, the Commission preliminarily categorized this application as ratesetting, and preliminarily determined that hearings were not necessary. No protests have been received. There is no apparent reason why the application should not be granted. Given

these developments, a public hearing is not necessary, and it is not necessary to disturb the preliminary determinations.

## **XI. Assignment of Proceeding**

Geoffrey F. Brown is the Assigned Commissioner and Jeffrey P. O'Donnell is the assigned Administrative Law Judge in this proceeding.

## **Findings of Fact**

1. Notice of the application appeared in the Daily Calendar on August 25, 2003.
2. No protests have been filed.
3. A hearing is not required.
4. In prior decisions, the Commission authorized competition, by carriers meeting specified criteria, in providing local exchange telecommunications services within the service territories of Pacific, Verizon, RTC, and CTC.
5. Applicant has a minimum of \$100,000 of cash or cash equivalent that is reasonably liquid and readily available to meet its start-up expenses.

9. Applicant will not be constructing facilities, other than equipment to be installed in existing buildings or structures.

10. Public disclosure of the financial information filed under seal would place Applicant at an unfair business disadvantage.

**Conclusions of Law**

2. Applicant has sufficient technical expertise to operate as a telecommunications carrier.
3. Public convenience and necessity require that Applicant's competitive local exchange services be subject to the terms and conditions set forth herein.

5. The application should be granted to the extent set forth below.
6. Applicant, once granted a CPCN, should be subject to the applicable Commission rules, decisions, General Orders, and statutes that pertain to California public utilities.
7. Applicant's initial tariff filing should correct the deficiencies in its draft tariffs as indicated in Attachment A to this decision.
